Fixed Rate Business Loan

Giving you flexibility and certainty in uncertain times

We're committed to helping small businesses get ahead and meet the challenges of the current business climate. We know that in these uncertain times, it's far from 'business as usual' for many companies. That's why we're doing everything we can to support your business with initiatives we feel are flexible enough to allow you to achieve your specific goals.

One way we're doing this is through our Fixed Rate Business Loan, which is specifically designed to give you the best of both worlds:

- **Certainty** – With fixed repayments that won't shift (during the course of the fixture) you'll always know how much you're paying each month, making it easier to calculate your cash flow and plan ahead for your business
- **Flexibility** – If you build up your cash reserves and want to repay some or all of your loan early then you can do that, and what's more there are no charges for doing so

Our Relationship Managers can help you on all aspects of financing your business, and also make things even simpler by handling loan applications on your behalf. A regular business review is a great way for us to discuss your long term aims and help your business flourish.
